Illuminate with efficiency and safety using Poly Optics' new LED-powered Fibre Optic Cable System

Poly Optics has recently unveiled a new line of safety lighting products that utilize cutting-edge LED technology in conjunction with its proprietary Super Side Light fiber.

Ideal for under bed, bathrooms, toilets, corridors, and steps.

USB-powered and easy to install.

Poly Optics' new safety lighting products offer an optimal combination of energy efficiency, reliability, and zero maintenance, making them the optimal choice for a variety of safety and aged care applications.

Ideal for a range of aged care and safety lighting applications:

- Hospital Wards
- Retirement Homes
- Nursing Homes
- Step and Aisle Lighting
- At Home Retirement Living
