BRING THE NIGHT SKY INTO YOUR HOME WITH A FIBER OPTIC STAR CEILING.

Create a stunning home theatre star ceiling with DIY fiber optic lighting.

A star ceiling is an excellent addition to any home cinema system. The stars twinkle and sparkle, adding a feeling of depth and texture to the space.

Features include:

- LED engines pre programmed with nine flashing and fading functions
- Power consumption less than 1 watt
- Fiber harness lengths available: 2.5m, 3m, 5m, 6m
- Multiple colours available: cool white, coloured (RGB), Blue & White
- Modular system with easy add on, additional LED engines and stars.

Each Kit contains the materials to install and easy step by step instructions. Create an immersive and unique starry sky effect that will dazzle.

WHAT'S IN THE KIT:

- LED lights with twinkle effect available in chosen color option
- 150 mm x 0.75 mm x 3 m fiber optic strands
- 1.0 mm drill bit
- Plug Pack
- Instruction Booklet
