

STEPS AND CINEMA LIGHTING

CONTACT US NOW!

Transforming ordinary staircases and aisles into extraordinary design elements that will take your breath away!

Poly Optics' Super Side Light solid core fiber optic cable, combined with LED technology, has revolutionized lighting design by offering endless possibilities that were previously unachievable.

This innovative technology has paved the way for illuminated staircases and aisles, transforming them from ordinary functional features to breathtaking design elements.

Poly Optics has developed a fiber optic lighting system that surpasses all others. The Super Side Light fiber optic cable, when lit with LEDs, delivers unparalleled performance, reliability, and energy efficiency.

The system is renowned for its zero maintenance, easy installation, and safe operation, making it an ideal lighting solution for venues with low ambient light levels.

IDEAL FOR A RANGE OF APPLICATIONS INCLUDING:

- Home Stairway Lighting
- Cinemas
- Emergency Stairway Lighting
- Entertainment Areas
- Pedestrian Areas
- Vehicle Aisle Lighting
